

## LIGHTWEIGHT CROWD CONTROL BARRIER WITH INTEGRATED FEET, 85CM HEIGHT

Compact and lightweight steel barriers with integrated feet for reliable, portable crowd control at events and public gatherings.

**SKU:** 1000030.00 | **Categories:** [Crowd Control Barriers](#)

## PRODUCT DESCRIPTION

Our lightweight steel crowd control barriers with integrated feet are an ideal solution for managing non-critical audiences and marking off areas with lighter crowd density. Perfect for sporting events such as cycling races, marathons, and city runs, they are also well-suited to public catering areas, securing merchandise stands, or reserving VIP parking spaces.

Thanks to their lightweight design and hook-and-eyelet connection system, these barriers are quick and easy to set up and dismantle, even over long distances. The integrated feet ensure stability on various surfaces, making them portable yet secure. Available in pre-packaged sets of 25, 50, or 75, they provide an efficient and flexible solution for event organisers.
