

EUROMAT HEAVY-DUTY TRACKWAY

EuroMat® is a high-performance, hand-installable trackway panel designed for temporary roadways, work zones, and heavy foot or vehicle traffic. Supporting loads up to 80 tonnes, it delivers dependable ground protection without the need for lifting machinery.

SKU: N/A | **Categories:** [Event Flooring & Ground Protection](#), [Temporary Trackway](#)

PRODUCT DESCRIPTION

EuroMat[®] offers a robust and flexible ground protection solution for events, construction, and infrastructure projects. Manufactured from 100% recycled or virgin HDPE, each mat combines impressive strength with a lightweight build that allows for manual installation, saving time and equipment costs on site.

Its unique **Chevron Traction[®] surface** delivers exceptional grip for vehicles and machinery, reducing slippage and improving safety. Optional **low-profile reversible surfaces** are available for pedestrian routes or smoother vehicle movements.

Engineered to minimise ground disturbance, EuroMat[®] protects turf, heritage sites, and soft surfaces while enabling vehicle access. It is ideal for temporary roadways, plant crossings, and compound areas—particularly where rapid installation, flexibility, and environmental consideration are key.

Key Features:

- **Supports up to 80 tonnes** – suitable for plant, vehicles, and equipment.
- **Chevron Traction[®] surface** – superior grip for added safety.
- **Quick Installation** – lightweight design enables manual handling.
- **Optional low-profile reverse** – ideal for pedestrian or smooth access.
- **Durable & Eco-Friendly** – made from 100% recycled or virgin HDPE.
- **Optional night-use safety** – reflective markings and cats eyes available.
- **Versatile fixing options** – compatible with a variety of terrains and ground types.

TECHNICAL INFORMATIONS

| | |
|--------------------------|---|
| Weight | 35 kg |
| Dimensions | 2.44 × 1.22 × 0.012 m |
| Material | 100% recycled or virgin High Density Polyethylene (HDPE) |
| Max Load Capacity | Up to 80 tonnes |
| Colour | Black (standard) |
| Installation | Manual placement, with various connection options |
| Optional Add-ons | Reversible surface / Reflective cats eyes / Non-slip markings |
