LARGE BEVERAGE REFRIGERATOR WITH GLASS DOOR, 350L

A spacious 350L beverage fridge with a glass door, designed for event bars, kitchens, and artist dressing rooms. Delivered in a protective rolling case for easy transport and on-site use.

SKU: 1000292.00 | **Categories:** Catering Eqiupment

PRODUCT DESCRIPTION

The Large Beverage Refrigerator with Glass Door provides a professional-grade cooling solution for event catering, bar areas, and backstage hospitality. With a 350L capacity, this refrigerator is fitted with six adjustable stainless-steel shelves and a dynamic air circulation system for rapid, even cooling of drinks and refreshments.

Designed for efficiency, a built-in door sensor pauses the cooling fan when the door is open, preventing warm air from entering and enhancing energy efficiency. The independent interior lighting ensures beverages are well-presented at all times, making it ideal for high-visibility areas such as bar setups and VIP lounges.

For seamless transport and setup, the refrigerator is delivered in a protective rolling case that allows operation without removal. Integrated ventilation openings and a service flap enable easy access while ensuring optimal performance, making it perfect for backstage catering, event kitchens, and bar service areas.
