

MOBILE LIGHTING TOWER, 8M, 4X HQI 1000W

High-performance mobile lighting tower providing 360,000 lumens, illuminating up to 5,000 sqm. Ideal for festivals, events, and outdoor worksites.

SKU: 1001885.00 | **Categories:** [Mobile Lighting Towers](#)

PRODUCT DESCRIPTION

The Mobile Lighting Tower (8.5m) delivers powerful, reliable lighting for large outdoor spaces such as events, festivals, and construction sites. Featuring four HQI 1000W metal halide lamps, the tower produces an impressive 360,000 lumens, illuminating areas up to 5,000 sqm with bright, even coverage.

Designed for outdoor use, this mobile tower is equipped with forklift pockets and anchor points for effortless transport and positioning. Its four adjustable spindle feet ensure stability, even on uneven terrain, making it suitable for any environment.

The tower operates quietly at only 65 dB, making it ideal for events where minimal noise disruption is essential. Its eco-friendly design boasts a fuel tank with a 170-hour capacity, and a built-in fuel collection system safeguards the environment against leaks. For added safety, a wind sensor automatically retracts the mast in wind speeds exceeding 80 km/h.

Additionally, the lighting tower can be powered via a 32A wired power source for flexible energy options.

TECHNICAL INFORMATIONS

Weight	8.5 kg
Dimensions	2.5 × 1.2 × 1.2 m
Illumination Area	Up to 5,000 sqm
Lamps	4x HQI 1000W metal halide
Light Output	360,000 lumens
Noise Level	65 dB
Wind Sensor	Automatic mast retraction at 80 km/h
Fuel Capacity	Up to 170 hours of runtime per tank
Power Supply	Compatible with 32A wired power source
